Education

Marathwada Mitra Mandal's Institute of Technology, Pune

2020-2024

Bachelor's in Engineering, Computer Science

CGPA: 7.30

Army Public School, Ahmednagar

2018-2020

Class XII

Percentage: 80.00

Army Public School, Ahmednagar

2016-2018

Class X

Percentage: 92.80

Work Experience

Java Developer Intern - OctaNet

Nov 2023 - Dec 2023

- Interned as a Java Developer, gaining proficiency in Java Object-Oriented Programming (OOPs), Servlets, and SQL.
- Applied acquired skills to actively contribute to a project, successfully implementing solutions and enhancing my understanding of full-stack development.
- This experience strengthened my grasp of Java technologies and their practical application in real-world projects.

Projects

MERN E-Commerce

[Link](#)

Developed a dynamic e-commerce website using the MERN (MongoDB, Express.js, React, Node.js) stack, featuring a sleek and responsive design created with Bootstrap. Implemented user-friendly interfaces allowing seamless order processing, integrated diverse payment methods, and incorporated robust product filtering options by category and price range. Designed and implemented an intuitive admin dashboard for efficient order management. This project demonstrates my proficiency in full-stack development, UI/UX design, and the utilization of Bootstrap for visually appealing layouts.

Loan Website UI

[Link](#)

Secured 2nd place in a web development hackathon with a user-friendly loan website. Developed using HTML, CSS, and JavaScript, the site featured intuitive loan and EMI calculators. This experience highlights my commitment to excellence and practical solutions in web development.

Banking Application - CRUD

[GitHub Link](#)

As a Full Stack Developer, I played a pivotal role in developing a banking application, utilizing Java, Servlets, SQL, and Bootstrap. I implemented CRUD functionalities, ensuring a seamless user experience. This project not only showcased my technical expertise in both front-end and back-end development but also highlighted my ability to deliver practical solutions in a dynamic environment.

Achievements

- Leetcode: Problems Solved - 50+ | Contest Participated - 2.
- Hacker Rank: Problems Solved – 70+
- Secured 2nd Place in a Web Development Hackathon.

Skills and Interests

- Java, JavaScript, Data Structures and Algorithms
- Object Oriented Programming, Database and Management System
- React JS, Node JS, Bootstrap, Git, Html/CSS, MongoDB.
